

SIZING GUIDE

MEASUREMENT GUIDELINES

We recommend taking all measurements from existing garments that you know fit well and comparing those measurements to the tables below to find your Tribal size.

1/2 Chest: We recommend taking an existing top that you know fits well and taking a straight line measurement across the chest, approximately 1cm below the armpit. Then use the charts below to obtain which size you are in the Tribal garment.

1/2 Waist: We recommend taking the measurements from a garment you own; alternatively, measure around the narrowest part of the individual's waist. To find the waist, get the individual to bend side to side and keep the tape horizontal and taut to take the measurement. Divide these in half to obtain the 1/2 waist measurement.
